

Brains Consulting is recruiting:

Senior QA Engineer (Mobile iOS, Android, Fullstack) - Remote

Remote 100%

San Francisco – rapid growing startup

Would you like to join the most innovative video, high tech team and work with guys who invented *Stories* as we know them today in Instagram or Facebook?

Now, they are expanding their web development team, we are helping the CTO to hire the right people on the board.

Most of the team members are open source contributors, so a very large bunch of senior software developers.

The Company offers a great salary and also stock option plan.

Job Description:

The company is based in San Francisco and has developers all over the world. The team is made of very strong engineers who are major contributors to open source and they are looking for similarly minded people to work with them. The company is growing rapidly, expanding and building the most cutting-edge innovations in mobile video.

As a Senior Mobile QA Engineer, you will:

Test mobile apps extensively

Collaborate with the Mobile, Backend, and Frontend teams to create a high-performance and robust video product.

Deliver high-quality work on schedule, even if it sometimes means working overtime.

Watch a video about this company & opportunity

Requirements:

Experience with iOS and Android rigorous QA testing

Experience with JavaScript QA

Know how to define testing requirements

Know how to test thoroughly

Work Flow:

Work in the US or EU timezone

Focus and 100% dedication to this job, occasional overtime work before a deadline

Full-time, **freelancer** / direct with the Company

Selection Process:

A GitHub profile with a few open-source repositories is a huge advantage and will accelerate the process.

Otherwise, we'll kindly ask you to go through a technical assessment (1-2 hours).

After the initial tech assessment, the team and the CTO will interview you and decide quickly.

Benefits

This May Be The Best Job Opportunity You've Seen In The Last 12 Months!
