- +3 years of application design & development experience;
- Solid experience with OOP, PHP 5, Web Services, XML/XSLT, HTML/CSS, JavaScript/AJAX, Apache, Linux, MySQL is required;
- Good knowledge of MVC architecture is mandatory;

- Experience with one of the following technologies – Laravel, Symphony, Lumen, CakePHP or Zend is required;
- Good knowledge of the LAMP stack (Linux, Apache, MySQL, PHP)
- Knowledge of version control systems such as Git or SVN is a plus.
- Familiarity with Agile development and tools, such as Jira.
- Familiarity with databases and data modeling/design techniques; data interface protocols; database software installation; database tuning;
- Basic knowledge of system administration and software and hardware configuration; ability to make informed recommendations to customer IT staff; ability to troubleshoot pre- and post-production implementations; security; load balancing and performance;
- Prior experience in helping clients through the decision-making process; E-commerce or similar web experience is strongly preferred;
- Fluent in Romanian and English, verbal and written communications
- Skills: JSON,jQuery,PHP, Laravel Framework, HTML5, MySQL, JavaScript, MVC, AJAX, OOP.

Responsabilities:

- Analyze client business needs and recommend innovative solutions that leverage technology to provide market differentiation, efficiency improvements, and better user experiences;
- Design, develop, and maintain scalable web applications to support a range of business functions and their defined requirements;
- Collaborate with an international team of Project Managers and Architects to understand client needs and communicate project progress;
- Provide technical assistance and support for incoming requests and issues related to corporate web applications
- Routine maintenance of corporate web applications;
- Troubleshoot client issues in web applications and in database;
- Analyze and determine root cause of application issues.

What you'll get in return:
- Attractive salary;
- Medical Subscription;
- Meal Vouchers;
- A cool Fun Room with bean bags, Playstation, board games and ping - pong.
