

Senior Graphic Designer – Childrenswear

Location: London UK

Description

We are currently looking for a wonderful Senior Graphic Designer to join our incredible in house design team on Childrenswear.

Brand-building is a demanding business, so you will need the stamina to come up with an endless stream of conceptual and creative ideas. You'll also have the tenacity to sell them to a group of busy people with strong personalities and have the resilience to take their feedback on the chin and push on to the next stage.

You'll have 6 years or more of solid working experience, have a demonstrated flair in both the digital and print sides of graphic design and we'll need you to be a caring but inspirational team leader. You'll know all about illustration and photography and, with your strong visual sense, you may even be a dab hand at art direction.

Working in a busy studio you'll understand how digital technology works from a design point of view and will be capable of working on a huge variety of projects across multiple channels. We

expect you to have great attention to detail and you'll also be comfortable overseeing the design process from beginning to end.

Experience in virtuoso Creative Suite skills is essential and you'll also have knowledge of repro on the print side. Motion graphics and Video editing skills are desirable.

If this doesn't scare the living daylights out of you - and you can demonstrate a serious, ideas-led track record working as lead designer on projects - we'd like to hear from you! Please apply with your cv, a cover letter explaining why you're the one we're looking for, and don't forget some relevant examples of your work.

You can see all our job offers on Facebook at [Brains Consulting](#)

If you are interested in applying for this position, please send your CV- in English- at office@brainsconsulting.ro
