

BRAINS is working closely with Recruitment Agencies and NHS Trusts along UK in order to support the career development of the Doctors who are willing to work in the modern, secure and well respected NHS (National Healthcare System).

Locum Doctors (young doctors, specialist doctors, Consultants) in U.K.

A locum is a person who temporarily fulfills the duties of another. For example, a locum tenens *physician* is a *physician* who works in the place of the regular *physician* when that *physician* is absent, or when a hospital/practice is short-staffed. These professionals are still governed by their respective regulatory bodies, ...
