Description of the goal of activity

The psychiatric clinics in Jönköping County offer the best possible care to the residents in the county who need a psychiatry specialist.

Care is equal and is located near the patients. The base is outpatient care.

- We take overall responsibility for specialist psychiatry in Jönköping County. Every employee looks at the whole and can overlook his part of responsibility.
- We work in interdisciplinary teams focusing on person-centred care, involved patients and close relatives.
- We have high availability with good continuity.
- Everyone takes responsibility for our work environment, characterized by job satisfaction, security, transparency and participation.
- We interact internally and externally based on the needs of patients and residents.
- We stand for an evidence-based and safe care of high quality, based on national guidelines and other written policies that are adapted to our local conditions and needs.
- We use our resources efficiently.
- We have a knowledge-based and learning organization where each employee takes responsibility for developing care.
- We follow society's development and work proactively.
- We contribute to create evidence in specialist psychiatry. The employees collect research data and all patient groups are included in research studies.
- When we compare ourselves with others, we are among the best ones in the country.

Description of the health centre

We offer you:

A job in a small but well functioning unit with the possibility of close collaboration with other clinics, including emergency services and inpatient care. In the unit there are handled all types of psychiatric conditions and the activities are conducted close to patients and local communities. The opportunities are good to contribute to the development and arrangement of the activity and you are offered continuous competence development. The psychiatric clinic at Högländet is an admittedly well-functioning clinic with a high focus on treatment, quality and knowledge.

The clinic has an exciting setup with devices in several locations in the catchment area, which enables both patient-oriented care and for employees to customize their daily lives according to their interests and wishes. Högländet is also an attractive area with a rich range of nature-, sport- and cultural experiences.

The job is permanent based on one of the general psychiatric receptions of the clinic.

You can work with:

You lead assessment, investigation, medical care and treatment for the unit's patients and collaborate with other healthcare units. Coordinate involuntary care according to LPT for unit's

patients. Work with activity development focusing on medical quality control and participate in the supervision of resident doctors, trainee doctors and students.

The job also includes participation in the clinic's on-call duties and medical team.

We highly value:

Our basis of value puts treatment of the patients in focus. We learn from each other and take advantage of our employees' skills. Based on the given frameworks, we work for always being able to provide the best possible care for all of our patients. We are positive and spreading joy to give each other a good working environment.

Services offered by the employer and the Partner

- During the personal visit which is part of the interview process, the cost of travel, accommodation and meals are financed by the Partner.
- 6 months long, free Swedish course, financial support during the course (the amount is topic of negotiation)
- Free language education for family members – to B2 level for spouses and school-age children, to C1 level for spouses who have jobs with licence requirement
- Informal help during the application for Swedish license to practice, supervision of the process
- 2 days long free Swedish legal and social training
- Integration assistance (assistance in registering at tax authority, opening bank account, etc.)
- Assistance in job-searching for the spouse
- Assistance in finding school/kindergarten for the children
- Assistance in the organization of moving and in apartment-seeking

Documents required for application:

- Professional English CV in which your experience (number of completed examinations/surgeries, with differentiation between pre-and post-specialization experience) are detailed
- scanned version of license to practice in home country with English translation (no official needed)
- scanned version of medical and specialist certificates with English translation (no official needed)
- two English-speaking reference persons who are reachable on phone

Don' t forget to tell your colleagues about this professional opportunity!
