

Paediatrics

Child and Adolescence Medicine Reception, Värnamo / SWEDEN

Requirements for education

Specialist exam in Paediatrics from within EU.

Required experience

Work requires medical skills throughout the paediatric area except diabetes and oncology. You have to be able to work independently and be able to cope with emergency situations at childbirth.

Skills and abilities required for the position

-

- To work with the child at the centre and to allow children and parents to participate in care and treatment.
- To handle emergency situations and acutely ill children in connection with childbirth in a safe way.
- The work requires that you work according to the developed routes of receptions, PM and routines. The work also includes participating in developing these ones.

Personal qualities required for the position

- Flexible,
- independent,
- good collaborative ability,
- high social skills,
- confidence-inspiring,
- stress-resistant
- to work in an efficient and structured way.

On-call duty

On-call duty is carried out according to a fixed duty-schedule with home preparedness at evenings, nights and weekends. Time for appearance: 30 minutes.

Further requirements

Supervision is a major and important part of the work. Paediatricians supervise doctor candidates, ST (trainee) doctors in general medicine and paediatrics. The work schedule is determined according to the needs of the activity from Monday to Friday,

Salary for staff with Swedish legitimation

You will start by being employed as a doctor's assistant with a salary of 45,000 kr / month with a general fixed-term employment contract for a six months' period while the language develops and the introduction takes place in the workplace. When Swedish legitimation and licence to practice as a specialist in Sweden has been issued by the Socialstyrelsen (National Board of Health), the employment will be changed to permanent and new salary will be paid as specialist doctor in accordance with the agreement. In Sweden a new specialist doctor who can work independently earns minimum **60-70 000 SEK/month**, to be raised further according to experience and abilities.

Planned date of employment

As soon as possible.

Description of the goal of activity

Our business is to be mainstreamed by a basis of value where treatment, trust and participation are important. We offer families investigation, care and treatment with high medical skills. Our accessibility is important both as for new visits and return visits. The Convention on the Rights of the Child is a natural part in our meetings with the families.

Description of the clinic

The child and adolescent reception in Värnamo is one of three specialist receptions in the county. The reception is located at the hospital in Värnamo. The activity is well established and has a clear assignment in the field of outpatient care for child and adolescent medicine. We work with giving advice, investigating and treating children and young 0-17 years. For children 0-1 year we have a primary care assignment. Our specialist doctors are responsible for examining new-borns at the maternity ward on a

daily basis and being in emergency preparedness for emergency births and maternity ward.

Within the clinic there are 16 paediatricians and 5 trainee doctors within the paediatric clinic.

Other staff are child nurses and healthcare administrators.

Plans for the future:

We are committed to improving, developing and ensuring all our processes. This is a work where all employees' involvement and commitment is important. We are constantly developing to meet tomorrow's needs, to develop our skills and to be an attractive employer. Paediatrics - Jönköping
