### **Additional Information**

For our client who has a base in Venlo, but also in De Kwakel, we are looking for drivers in the transport of flowers and plants through Holland.

It's a good paid job, but daily there are multiple addresses and sometimes the driver will be scheduled for work at night (during the whole week) – but this is paid extra + 19%. It's a job within a company where all the drivers are well respected and treated well by other colleagues and the owner of the company also.

The job itself is about transporting pallets and trolleys with flowers or plants and bringing them to an auction house, distribution centre, or a garden centre. NO supermarkets. There is some manoeuvring to the dock, but not in crowded places. We can arrange housing and insurance. The driver then is insured in whole Europe and can use (and even his family when paid a little extra) medical help anywhere in Europe.

It's not an hard job, but the driver must be 'quick thinking and acting', hardworking and have good communicative skills (English). Most of the weeks the drivers works during daytime, but some weeks during the night (paid extra).
