

Child and Adolescent Psychiatry (BUP)

SWEDEN

Job specification:

Child and Adolescent Psychiatry (BUP) in Gävle city in Gävleborg county

Education required

Specialist in Child-and Adolescent Psychiatry.

Job description

As a child psychiatrist you will handle diagnostic investigations and treatment of depression, anxiety disorders, OCD, ADHD, Tourette syndrome, incipient bipolar disease and psychotic illness. BUP investigates autism in children aged 6-17, treatment is done at child rehabilitation. We also have two outpatient care places located in the hospital area, in connection with adult psychiatry and staffed by BUP doctors. The doctor also makes some certificates around insurance. You do not have the patient in conversation contact. At present, there are no night shifts, but there are day shifts at weekends. As a doctor, you need to be

responsible for pharmacological treatment, somatic and psychiatric assessment and be oriented in psychosocial and therapeutic treatments. You need to be able to collaborate and be responsive to both families and employees.

Description of the work at the actual clinic

BUP is tasked with providing interventions in accordance with national guidelines for different conditions of children and young people 0-17 years with moderate to severe mental illness. In Gävle we have two units, one for assessment and investigation and one for treatment. A total of about 2,000 patients go by us. The most common diagnoses are ADHD, anxiety, depression. We work together with several different professional categories in teams. As a doctor, you are responsible for medical treatment in collaboration with a nurse as well as for overall planning and decisions around the treatment as a whole. We have a high level of competence by the employees, which provides good support in team collaboration. About 7 specialists work in Gävle. We are part of a clinic, HAB-BUP Gävleborg, with receptions also in Bollnäs and Hudiksvall. We have regular collegial meetings with exchanges and cooperate, for example, around the call line. In total, we are about 14 specialists at the BUP in the county. We are a multicultural group that enjoy together! BUP in Gävleborg has succeeded well together with its foreign-born doctors in creating well-being and mutual respect.

Number of inhabitants in the catchment area

285,000, of whom children / young 0-17 approx. 56,000, are distributed throughout the county of Gävleborg. In Gästrikland (catchment area of Gävle) there are about 150,000 inhabitants.

Number of employees (trainees, specialists, nurses and other staff)

Within BUP, more than a hundred staff nurses work: psychologists, socionoms and doctors, etc..

Right now we are 14 specialists and 2 ST doctors (trainees). We plan to employ up to 3 ST doctors in the coming year, in addition to this recruitment

Plans for the future, for example (if the business will develop in any particular direction, organizational changes)

We have fused BUP with the Child and Youth Habilitation and the psychiatric primary care for children and young people. This enables us to develop the entire chain of efforts for the children. We continue to work in teams and develop digital aids such as APP in medication insertion, Skype calls with patients. Both physicians and a large proportion of staff have basic psychotherapeutic training. The majority of patients within BUP are medicated in parallel with

other efforts. We have a lot of cooperation with families, schools, social services. We have doctors continuously under education in adult psychiatry and paediatrics with us.

Clinical experience (what kind of treatments / patients the candidate has to have experience with)

Having min. 2-3 years of experience as a specialist is an advantage. Masters pharmacological treatment such as SSRIs, ADHD medications, neuroleptics. Has an interest in psychosocial and therapeutic forms of work.

Special knowledges and skills or special interests that are important to the service

Interpersonal skills.

Linguistic talent.

Accustomed to medication.

Important personal characteristics

- Dares to try again,
- asks when he / she does not understand,
- willingness to adapt to Swedish conditions.

If you have a family, it is important to think about how it will be for the partner with, for example, work opportunities and languages.

On-call duty

Daytime duty on weekdays usually 8-17, weekends 10-16. We are 8-9 persons who share weekend shifts.

Other requirements

Supervising sub-doctors is included in the work. We have a so-called learning organization and to further educate other occupational categories, younger colleagues report from courses taken.

Driving license facilitates.

What we have noticed over the years is that any accompanying partners have varying degrees of success in getting into working life. Good conditions exist for partners working in healthcare or as teacher.

Salary

For a specialist doctor from Europe, the salary for 2019 looks like this:

1: employment as an assistant doctor, fixed term with a salary of 41,600 / month until C1 course in Swedish comple

ted and Swedish legitimation and specialist certificate have been issued, then the employment will be transferred to

2: legitimated sub-doctor, a certain time with a salary of 45 600 SEK / month until the candidate fulfils the tasks associated with work as legitimated sub-doctor. Then the employment goes to

3: legitimated sub-doctor with permanent employment with a salary of SEK 49 600 / month, when the candidate fulfils the duties of

4: specialist doctor, the salary will be 62 600 SEK / month. When the candidate passes the role of

5 head-doctor, the salary will be 75.000 SEK / month.
