

# Senior PHP Back-End Engineer

Timisoara, Romania -

About

## WHAT THEY ARE USING

- AWS as out main cloud solution in combination with Vagrant
- the back-end is mainly PHP with some flavours of Laravel supported by MySql and Redis
- In Front-End you will find , TypeScript, ReactJS but also some internal frameworks
- They use Git, Jenkins and Selenium
- The platforms are powered by a strong design team collaborating through Zeplin and InVision

## SOME OF YOUR FOCUS AREAS WILL BE

- You'll be a hands-on engineer who can teach best practice within your team ensuring technical excellence
- You will support the tech lead and help drive the technical vision and strategy in collaboration with the team turning it into reality
- Focus on application security and scalability
- Review code to ensure it is efficient, well-tested, documented and optimal
- You'll be focused on continuously improving our engineering processes and practices, quality and deliverables
- You are an evangelist of unit testing

## ABOUT YOU

- You have previous experience in working with local and remote teams
- You have a deep knowledge of software engineering
- You've extensively worked with PHP, OOP, Design Patterns, various frameworks, asynchronous message queues and have experience with microservices architecture
- Other programming languages are a big plus
- Experienced working with SQL databases, query optimization and transactions
- Your code reads like well-written prose
- Experience with legacy code and transition toward a microservices architecture
- Experience in developing and scaling a microservice oriented system (high availability and security)
- You worked with cloud hosting platforms (AWS, Azure)
- You're experienced at mentoring junior engineers
- Have a passion for building quality into every software development activity
- You are a practitioner of agile development with a track record of learning from your actions to make positive adjustments.

## YOUR ADVANTAGES

- Flexible work schedule and occasional home-office
- Professional growth opportunities such as trainings, online courses, conferences
- Social gatherings and events, workshops, hackathons and memorable team buildings
- The Company appreciates your loyalty to the company and as a thank you, you will benefit of extra vacation days according to your seniority
- Private medical insurance + partial reimbursement for glasses / contact lenses
- Full access to gyms/fitness centers across the country for you and your spouse
- Meal tickets
- Yearly bonus based on company growth
- Birthdays celebration with birthday cakes and gift vouchers
- Health in a basket full of fruits daily and breakfast snacks
- Rivers of coffee, tea and soft drinks
