

Embaded Software Developer

Working location:
Timisoara, Romania

MIDLEVEL EMBEDDED SOFTWARE DEVELOPER TIMISOARA, TIMIS

For one of our Clients, a company with over 10 years of experience in developing embedded solutions for the automotive industry (AUTOSAR Adaptive modules), we are looking for a Mid-Level Software Developer.

Skills:

- 2-3 years experience with C++ (The platform uses C ++ 14);
- Linux savvy;

- Problem-solving skills;
- Ability, capacity, and willingness to learn new skills;
- Capable of programming for real time systems.
- AUTOSAR Adaptive Knowledge is a plus, is NOT mandatory.

The offer:

- Attractive compensation package.
- Flexible working program.
- Opportunity to work in a young and dynamic team.
- Possibility to work with newest technologies in the automotive sector.

Working location:
Timisoara, Romania
