

QA Engineer

Romania, Bucharest

The Company is the digital commerce & payments provider that helps companies sell their products and services. Their products are proudly used by HP Software, Bitdefender and thousands of other clients globally, their team is building a successful product, tremendously recognized by 50+ international industry awards.

As part of the team you'll work in a friendly and fast-paced environment, where ideas are encouraged and people are passionate about their work.

Interested to join the team?

We are seeking a QA Engineer who is highly analytical and driven and who is very process and detail oriented to be part of the Testing Department.

What you need to have:

- Over 2 years of experience in software testing;
- Experience in different types of testing (functional, regression, system, sanity testing);
- Previous experience in testing/ development for web-based applications (cross browser testing);

- Experience in working with Agile SCRUM structure;
- Experience with at least one tests/bugs/change requests management system – Jira is a plus;
- Experience with working with at least one database system - MySQL is a plus;
- Experience with code versioning system is a plus;
- Previous experience with automated testing is a plus;
- Proactive attitude, detail oriented;
- Excellent presentation and communication skills, fluent in English.

What would be nice to have:

- Experience in working with at least one CI tool (preferably Jenkins);
- Experience in working with BDD test automation frameworks (Behat / Codeception / Cucumber) preferred;
- Experience in working with Selenium Webdriver;
- Basic programming skills with PHP / Java;

What you'll do:

Develop and implement tests (functional, regression etc.);

Bug reporting to the Development Team;

Implement the test automation process;

Suggest new methods of testing;

Write technical documentation.

Benefits:

- International work environment in an exciting growth phase
- Attractive compensation package with annual performance bonus
- Flexible business hours and work from home
- Flexible benefits package with a monthly budget that you can use for different perks like: meal tickets, public transportation refund, various gym subscriptions with 50% discounts, private pension funding, shopping vouchers etc.

- Private medical subscription (with 2 different medical providers to choose from)
- Bookster subscription
- Fruits in the office, best coffee every day and great team events
