

## Specialist Sectors

# PAEDIATRY

**Belgium (Flanders)**

### **Paediatrician needed for a regional hospital in Flanders Belgium**

As of 01/01/2021, the pediatric association consists of 3 pediatricians and wishes to expand with an enthusiastic and driven colleague. As a pediatrician, you are responsible for the follow-up of 16 recognized beds, a maternity ward with approximately 500 deliveries per year, a non-intensive neonatology and an emergency service with ambulance (MUG) function that also takes care of children. There is smooth cooperation with the colleagues of pediatricians (sub-specialists) and other disciplines of the 2nd campus.

#### **Qualities**

- All-round and fully trained
- Flexible
- Communicative

**This is you:**

- You are recognized as a specialist in pediatrics in Belgium or will soon be recognized.
- Sub-specialization is not required, but certainly welcome.
- You have sufficient social skills in dealing with patients and colleagues.
- You are passionate and contribute to the further growth of the service in a spirit of cooperation.
- You are willing to receive further training.

Reasons for choosing this job

- We offer a challenging full-time job in a hospital in full expansion.
- It concerns a position with an independent status.
- There is an attractive waiting arrangement.

**Brains Consulting and The Partner will help you:**

- Get help arranging the correct documents and registrations
- Prepare for a career abroad through our Language Academy
- Have everything arranged from A to Z: contract negotiations, housing, banking, insurance and registrations.

**Don't forget to send this offer to your friends and colleagues specialist doctors! Thank you in advance 😊**
